Effective October 2008, current students should be able to evaluate their program via WebAdvisor. Using Program Evaluation as part of Smart Registration, students should get prepared for the upcoming e-Advising feature in WebAdvisor. Program Evaluation is also used to justify the undergraduate’s graduation. This manual will walk you through the process.

1) Log in to WebAdvisor. Simply login to SU Online will not automatically sign you in.
2) Upon log in and click on “Current Student” role, the student menu should display “Program Evaluation” under the Academic Profile menu.
3) When a user accesses Program Evaluation, the following form is displayed:

You can choose one of the following:

- Select one of the current active programs by clicking in the Choose One column in front of the program that you want to evaluate.
- Perform a what-if evaluation by selecting another program, being offered at Shenandoah University, that you are considering. With this evaluation, you can determine to what extent the requirements of the program have already been satisfied. Selecting “what-if” does not admit you into any of these programs.
4) After selecting a program and an include option, clicks **Submit** to see the academic evaluation.

Disclaimer: As of Fall 2008, due to the tedious process in verifying degree audit accuracy by each Dean's Office, the program requirements are built from academic programs in the catalog year 2005 onward. Should you find any errors in Program Evaluation, or suspect that your program has been evaluated incorrectly, consult with your advisor and Dean Office's administrator regarding the accuracy of Program Evaluation in the catalog and Dean Office's should notify Registrar Office immediately of changes in the catalog.
How to print this page:

1) There are many ways to print your program evaluation view page:
   a. Use the “Print this Page” button in the top left corner, adjust the properties to match with your desire.

   ![Print this Page button]

   b. Select and highlight all text in the grade table, Use Ctrl+P from your keyboard, adjust the properties to match with your desire.

   **We do not recommend using the print icon from your browser as it will print the SU Online portal frame page only.**
